

Curriculum Office | Washington University School of Medicine
660 S Euclid Ave, Campus Box 8214 | St. Louis, MO 63110

A drug screening is a required condition for beginning a rotation in our clinical areas. Successful completion of a drug screening must be verified before a visiting student may apply for electives at Washington University School of Medicine.

If a drug screening is not required by your home institution, you may have a drug screening performed independently to satisfy this requirement. The results of the independent screening should be submitted to your home institution. Please have your Dean and/or Registrar review the results, sign this verification statement, and affix your school seal. Please do not send the actual report, only this verification statement should be submitted by mail to the address above.

This student has completed and passed the drug screening requirements of our school.

Name of Student:		Expected Graduation Date:
